## AirTek Construction After Market Parts and Sales

Our parts division exists to add value to your company by delivering quality replacement parts, consistently, and timely. With two enclosed warehouses, over 200,000 square feet of storage space, and over 1.5 million dollars worth of inventory on hand, we have the parts to service your ESP no matter the OEM. Our extensive precipitator experience, with all brands, allows us to provide the parts that will optimize your precipitator's performance year after year.
